Fenwick, M. (2013). Readability Tests: Magic Formula or Recipe for Disaster - UX Mastery. Retrieved October 2, 2023, from <https://uxmastery.com/readability-tests-magic-formula-or-recipe-for-disaster/>.

Text Readability

Is the readability of items at an appropriate level for the credential?

- Compared readability of Architect Registration Examination item text to that of print architectural resources
 - Word length
 - Word complexity
 - Sentence length
- Results supported item text as appropriate
- Constraints:
 - Purpose of readability formulas
 - Format & amount of required text

Graphic Readability

Is the “readability” level of item graphics (tables, drawings, photos) appropriate for the target candidates of the credential?

- Created a definition of graphic readability
 - Familiarity of content and terminology
 - Information presentation and concepts
 - Comprehension requirements (subject matter knowledge and external information)
- Developed a rubric for SME review and evaluation
- Results:
 - Identified areas for improvement of graphics
 - Guide future selection and development
